Newport Daily News

THURSDAY MORNING, April 29, 1858.

[☞ S. E. KNAPP, (successor to J. Palmer,) Newspaper Advertising Agent, 1, Scollay's Building, Court street, Boston, is authorized to receive advertisements for this paper, at the same rates as required by us.

Talking Nonsense.

"Coal freights are low, and do not remunerate the owners, because the curse of Democratic Free Trade has lighted on all the New England manufactories, who consume no more fuel because Free Trade has made the country too poor to consume their goods. The same fatal policy has so much broadstuffs down to a lower price, for ten years past, as that even this stupendous folly has its compensations."

The above fragments of wisdom are extracted from a letter dated at Philadelphia and published in the *N. Y. Tribune*,—which paper seems to give it a semi-endorsement by the heading, "from our own correspondent."

It is related by Sir Walter Scott, in his "Tales of a Grandfather," that on one occasion during the bitter and turbulent days of a certain British monarch, his majesty attended a religious meeting where the pastor proved to be excessively savage against the royal government arraigning and condemning it in the most pointed terms. The king, as might naturally have been expected, did not altogether relish this proceeding, and after enduring it as long as his patience would admit, he deliberately arose in the meeting, and addressing himself to the preacher, desired him either to "talk sense or come down out of the pulpit." The historian adds, that the parson was quite as angry as the monarch, and in the most impudent and defiant manner, told his sovereign that he would do neither!

So of the miscellaneous herd of scribblers that write for newspapers: if they would either "talk sense or come down," we could get along with them. But, like Sir Walter's frenzied and infuriated parson, they will do neither!

Now the *Tribune* is an able and excellent public journal on most subjects taking high moral and political ground, and sustaining its positions with rare and admirable ability. But it has some helpers who do not appear to help a great deal—unless it be in the way of holding back, confusing and belarging that which might otherwise be clear, or perverting facts and arguments to the promotion of some erroneous and perhaps mischievous purpose.

Of this class of helpers, the Philadelphia correspondent of the *Tribune* is a fair sample. He is a great worshipper of the policy, name and fame of the late Whig idol, Henry Clay, and hence he regards the policy of admitted by the Tariff. Nothing can be more absurd, irrational and nonsensical,—but you could never convince him of it.—He thinks this planet, or at least, this western hemisphere, was got up on purpose to form a theatre for the exhibition of the Tariff policy, and that Mr. Clay was not only the greatest man that ever lived, but that in all probability the world will never look upon his like again. Now, a man with such kind of crankiness in his head, you can never do any thing with. Though you were to bray him seven times in a mortar, yet would not his foolishness depart from him.

The reason this Philadelphia wiseacre gives, why "coal freights are low," is curious enough. It is two-fold, yet wholly false. "Democratic free trade (he says) has lighted on all the New England manufactories," &c. We affirm—if we may be supposed to know anything relative to New England affairs—that "Democratic free trade" has not "lighted on" so much as *one* manufactory in all the six New England States,—for the plain and certain reason that "Democratic free trade" does not yet exist in the policy of the government. The Philadelphia correspondent of a leading journal like the *Tribune* ought not to be ignorant of a fact so obvious.

Again he alleges that the "free trade" aforesaid has made the country too poor to consume their goods—i. e. the goods of the New England manufacturers. The absurdity of such a proposition must be apparent upon its face.

The country is by no means so "poor" as some folks imagine—and if it were, its poverty has not been caused in the way described.

The same fatal policy (he continues) has knocked breadstuffs down to a lower price "than for ten years past." Here are two palpable mis-statements. In the first place, it is no such period as ten years—only about seven or eight years—since breadstuffs were ever lower than they are now in the Atlantic States; and secondly, "the fatal policy" he speaks of, has certainly knocked nothing down, for said "policy," as before stated, is a mere nonentity in this country—has no shadow of existence. The low price of breadstuffs is, at worst, but an incident of the late financial revulsion; but it is far likelier that the price at which breadstuffs have ruled of late years has been unreasonable and extraordinary one, growing out of a false and wretchedly inflated currency.

It has been the fashion of late, in talk, to write, and to [illegible] upon the rights of labor. We consider labor mistaken—her position, and, in a higher struggle—in the [illegible] theme. That there is cause for this, we do not deny—but we regret that there should be so much said, and so little done. And most of all, that so much should be asked by those whose earnestness has taken the spirit of fanaticism.

And yet we would ask, (with all deference, for those who are older and wiser than ourselves) one little hope for the fairer portion of the latter half of it will cost but little, and in that little the giver will be doubly blessed,—for if woman be endowed with a conscience equal to the [illegible] of creation—and we believe, that has never been doubted—however much may have been derrogated from her equality in intellectual power, it certainly is her unquestionable right—and *Man*, should be loud generously defending her in the exercise of it—that in all circumstances, where she has been thrown upon the world, for her own support, or the maintenance of a family—she should go forth in the strength, which has been given to her, and to her *alone*, and which consists in her own intellectual and individual *will*, to make use of such talents as her Divine Creator has bestowed upon her, for the [illegible] position in which she has been placed. Let us then give to our women a fair chance in the world—and not only permit them uncensured to choose that way of earning a livelihood most in unison with their individual talents and tendencies, but freely and generously accord to them in it a position irrespective of sex, and honorable, so far as it is sustained with true honor and merit.

A PRAYER.

[From the German of Krummacher.]

THE SETTING SUN.

BY REV. C. T. BROOKS.

The sun is setting brightly;
How clear he looks and sprightly!
How like a friend he seems to gaze,
While slowly sinks his golden rays!

This is the way, he preaches,
And this the truth he teaches:
Whoe'er in goodness spends the day,
When evening comes, is always gay.

He walks from morn to even,
His destined path through heaven,
And from his heavenly seat pours forth
Brightness and warmth o'er all the earth.

Then when the day is ending,
He, to his rest descending,
Yet stays his downward course a while
To greet us with a farewell smile.

And now he is reposing,
Night shades are o'er him closing;
But with new splendor soon he'll rise,
And flame on high in eastern skies.

So tread the path before thee,
Of virtue, bliss and glory,
That, when the day of life is o'er,
Thy sun may rise in heaven to set no more.

BUSINESS AT CHICAGO.—The following is an extract from a letter from a Chicago merchant:

"Everything is in a suspended condition here at this time. A want of Eastern demand for grain causes an unusual state of things. Navigation has been open for a month, but farmers refuse to take the prices offered for grain, and are storing it in warehouses. The dealers refuse to advance prices, and have deposited their money in bank. The transportation companies have tied up their vessels, and refuse to take grain at the rate of freight offered.

"I understand there was never known such immense quantities of grain as are now accumulating at this point—never as much money on deposit, to the credit of grain dealers—never as many vessels tied up in the harbor—all at a dead stand still."

IMPRISONMENT OF A BOSTONIAN IN MEXICO.—Advices have been received from Mexico that Mr. Sidney Coolidge, a native of Boston, has been taken prisoner in Mexico by General Echeaganay, but that he was not personally injured. The cause of his arrest is not stated. Mr. Coolidge is a son of Mr. Joseph Coolidge of Pemberton square in this city, and was formerly connected with the Observatory of Cambridge. He went out to Mexico to survey the proposed railroad from Vera Cruz to the Pacific, and, probably, while engaged in his vocation, was arrested, in consequence, possibly, of the distracted condition of that country.

BY A BABY OVER A YEAR.—When it is necessary to feed infants artificially, and cow's milk is used, it should be first boiled, then skimmed, then sweetened a little with sugar, and next a little salt added, not enough to give it a salush taste; milk thus prepared will not only prevent the indigestion and consequent acidity, flatulence, colic, diarrhoea, &c., from which sucking children suffer so much but will actually cure them.

A hearty infant will swallow, during the first year of its life, fourteen hundred pounds of milk, in which are twenty-one pounds of cheese, thirty pounds of butter, and a hundred and twelve pounds of sugar. At six cents a quart, with the necessary sweetening each "dear" little creature costs, for food alone, fifty dollars for the first year.—*Hall's Journal of Health.*

Decay in Fruit Trees.

We have often heard the practice recommended of driving nails into decaying fruit trees, to restore their vigor. But we have never seen the truth set forth so strikingly as in the following from the Southern Planter:

"A singular fact, and one worthy of being recorded, was mentioned to us a few days since by Mr. Alexander Duke, of Albemarle. He stated, that whilst on a visit to a neighbor, his attention was called to a large peach orchard, every tree in which had been totally destroyed by the ravages of the worms, with the exception of three, and these were the most thrifty and flourishing peach trees he ever saw. The only cause of their superiority known to his host, was an experiment made in consequence of observing that those parts of worm eaten timber into which nails has been driven were generally sound. When his trees were about a year old, he had selected three of them and driven a tenpenny nail through the body as near the ground as possible; whilst the balance of his orchard had gradually failed and finally yielded entirely to the ravages of the worms; these three trees selected at random, treated precisely in the same manner, with the exception of the nailing, had always been vigorous and healthy, furnishing him at that very period with the greatest profusion of the most luscious fruit. It is supposed that the salt of iron afforded by the nail is offensive to the worm, whilst it is harmless, or perhaps even beneficial to the tree.

A chemical writer upon this subject, says: "The oxydation or rusting of the iron by the sap evolves ammonia, which as the sap rises, will of course impregnate every part of the foliage, and prove too severe a dose for the delicate palate of insiding insects." This writer recommends the driving of iron nails into the trunk. Several experiments of this kind have resulted successfully."

Providence, July 30, 1857.

C. A. P. Mason,—Dear Sir:—I am now using the Alpine Hair Balm, which I had of you, with most happy results. On the 30th of June last, my hair (which had been gray for more than six years) was fast falling off; but on the third application of the Balm it ceased falling, and is now firmly rooted, and very nearly its original color. By the use of one bottle, I confidently expect a complete, permanent, luxuriant and original head of hair. If every gray haired skeptic would *try it*, they would soon become "living epistles, known and read of all men," as having used the Alpine Hair Balm. Yours, &c.

TESTIMONY OF A LADY OVER 50 YEARS OF AGE.

Mr Mason, Sir:—I write to inform you how pleased I am with your Alpine Hair Balm. My hair has been gray for a number of years, and I have been obliged to wear a front piece and cap; but have always found a difficulty when having a bonnet on to keep the front piece from working back and showing the white hair. Finally I concluded I would try your Alpine Hair Balm; I used one bottle only and my hair has come back to its natural color, which was brown. My hair is now perfectly free from dandruff and is soft and glossy.

Very respectfully, SARAH LYON.

NEW SINGING SCHOOL.

IN all human affairs there are three things always sought, viz. Quantity, Quality, and Economy ... the human voice, it is universally allowed, is the noblest instrument ... certain ... of the following proposals ... a singing school ... desirous of learning ... being placed in large classes. To meet this difficulty I will form classes and to consist of not more than eight pupils. Instead of one large room, in which all the pupils would be placed, I will have two, a waiting room for them as they arrive, and one for the class under tuition. There will not be more than one class at a time receiving instruction. Thus private tuition will be the result of this arrangement. To assist the voices I shall have one of Ward's best Melodeons. The school will be day and evenings. For the day the hours will be from 9 to 12 A. M., and from 1 1-2 to 4 1-2 P. M.—and for evenings, from 5 1-2 to 8 1-2. The terms are per quarter of 24 lessons, at an hour, payable in advance; Saturdays and Sundays are of course excepted. Ladies and Gentlemen wishing to enter, will please leave their names as early as possible with Mr. Glanville (organist of the Catholic Church) at No. 7 Howard street, or with Mr. Ward, Narragansett Buildings. I propose to open on the 1st of May, if by that time there be a sufficient number to warrant so doing. Do not delay, and in giving your names, leave the hour most convenient, so that the classes may be formed accordingly. I cannot doubt but that in Newport, famed for getting up winter singing schools, the plan I submit will be appreciated and supported. This is not intended as for a single quarter, but as an institution open at all times.

Due timely Notice will be given before the opening. I am induced to make the terms thus low, as I am convinced many a sweet voice has been lost to us from the want of means to cultivate it. 24

Wolfe's Celebrated Schiedam Aromatic Schnapps.

This medicinal beverage is manufactured by the proprietor at Schiedam, Holland, expressly for medicinal use, by a process peculiar to his own Factory. It is the pure Tincture from the Italian Juniper Berry whose more vinous extract is distilled and rectified with its spiritous solvent, which thus becomes a concentrated tincture of exquisite flavor, & aroma, altogether, transcendant in its cordial and medicinal properties to any alcoholic stimulant now made in the world. It is now prescribed by more than 5,000 physicians in the United States, in cases of Gravel, Gout, Dropsy, and Bladder and Kidney Complaints.

Put up in Quart and pint Bottles, in cases of 1 dozen qts, and cases of two dozen pts, and for sale by all the Druggists and Country Merchants.

A BEAUTIFUL HEAD
OF
RICH GLOSSY HAIR
COMPLETELY PRESERVED
TO THE GREATEST AGE.

And who that is grey would not have it restored to former color? or bald, but would have the growth restored, or troubled with dandruff and itching, but would have it removed, or troubled with scrofula, scald head, or other eruptions, but what would be cured, or with sick head ache, (neuralgia) but would be cured? It will also remove all pimples from the face and skin. Prof. Wood's Hair Restorative will do all this. See circular and the following:

... Professor Wood: ... much said of the wonderful effects of your Hair Restorative, but having been so often deceived by quackery and quack nostrums, hair dyes, &c., I was disposed to place your Restorative in the same category with the thousand and one loudly trumpeted articles, ... until I met you in Lawrence county some ... since, when you gave me such assurances as induced the trial of your Restorative in my family—first by my good wife, whose hair had become very thin and entirely white, and before exhausting one of your large bottles, her hair was restored nearly to its original beautiful brown color, and had thickened and become beautiful and glossy, upon and entirely over the head; she continues to use it, not simply because of its beautifying effects upon the hair, but because of its healthful influence upon the head and mind. Others of my family and friends are using your Restorative, with the happiest effects; therefore, my skepticism and doubts, in reference to its character and value, are entirely removed; and I can and do most cordially and confidentially recommend its use by all who would have their hair restored from white or grey (by reason of sickness or age,) to original color and beauty, and by all young persons who would have their hair beautiful and glossy.

Very truly and gratefully yours,
SOLOMON MANN.

FRIEND WOOD:—It was a long time after I saw you at Blissfield before I got the bottle of Restorative for which you gave me an order upon your agent in Detroit, and when I got it we concluded to try it on Mrs. Mann's hair, as the surest test of its power. It has done all that you assured me it would do; and others of my family and friends, having witnessed its effects, are now using and recommending its use to others as entitled to the highest consideration you claim for it.

Again very respectfully and truly yours,
SOLOMON MANN.

CARLYLE, ILL., June 28, 1852.

I have used Prof. O. J. Wood's Hair Restorative, and have admired its wonderful effects. My hair was becoming, as I thought, prematurely gray, but by the use of his Restorative it has resumed its original color, and, I have no doubt, permanently so.

THE LIVER

INVIGORATOR.

PREPARED BY DR. SANFORD.

Compounded Entirely from Gums,

Is One of the best Purgative and Liver Medicines now before the public, that acts as a Cathartic, easier, milder, and more effectual than any other medicine known. It is not only a Cathartic, but a Liver remedy, acting first on the Liver to eject its morbid matter, then on the stomach and bowels to carry off that matter, thus accomplishing two purposes effectually, without any of the painful feelings experienced in the operations of most Cathartics. It strengthens the system at the same time that it purges it; and when taken daily in moderate doses, will strengthen and build it up with unusual rapidity.

SANFORD'S LIVER INVIGORATOR

The Liver is one of the principal regulators of the human body; and when it performs its functions well, the powers of the system are fully developed. The stomach is almost entirely dependent on the healthy action of the Liver for the proper performance of its functions; when the stomach is at fault, the bowels are at fault, and the whole system suffers in consequence of one organ—the LIVER—having ceased to do its duty. For the diseases of that organ, one of the proprietors has made it his duty, in a practice of more than twenty years, to find some remedy wherewith to counteract the many derangements to which it is liable. To prove that this remedy is at last found, any person troubled with LIVER COMPLAINT, in any of its forms, has but to try a bottle, and conviction is certain. These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING the BLOOD, giving tone and health to the whole machinery, removing the causes of the disease—effecting a radical cure. BILIOUS ATTACKS are cured, and, WHAT IS BETTER, PREVENTED, by the occasional use of the Liver Invigorator. One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring. Only one dose taken before retiring, prevents NIGHTMARE. Only one dose taken at night, loosens the bowels gently, and cures COSTIVENESS. One dose taken after each meal will cure DYSPEPSIA. One dose of two teaspoonfuls will always relieve SICK HEADACHE. One bottle taken for female obstruction removes the cause of the disease, and makes a perfect cure. Only one dose immediately relieves CHOLIC, while One dose often repeated is a sure cure for CHOLERA MORBUS, and a preventive of CHOLERA. Only one bottle is needed to throw out of the system the effects of medicine after a long sickness. One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin. One dose taken a short time before eating gives vigor to the appetite, and makes food digest well. One dose often repeated cures CHRONIC DIARRHŒA in its worst forms, while SUMMER and BOWEL complaints yield almost to the first dose. One or two doses cures attacks caused by WORMS in Children; there is no surer, safer, or speedier remedy in the world, as it never fails. A few bottles cures DROPSY, by exciting the absorbents. We take pleasure in recommending this medicine as a preventive for FEVER and AGUE, CHILL FEVER, and all Fevers of a Bilious TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

All who use it are giving their unanimous testimony in its favor.

☞Mix Water in the mouth with the Invigorator, and swallow both together.

THE LIVER INVIGORATOR

IS A SCIENTIFIC MEDICAL DISCOVERY, and is daily working cures, almost too great to believe. It cures as if by magic, even the first dose giving benefit, and seldom more than one bottle is required to cure any kind of Liver Complaint, from the worst Jaundice or Dyspepsia to a common Headache, all of which are the result of a Diseased Liver.

Price one dollar per bottle.

DISCOURSE on Religion, Morals, Philosophy and Metaphysics by Mrs. Cora L. V. Hatch, Price $1,00, for sale at
TILLEY'S.

The following remedies are offered to the public as the best, most perfect, which medical science can afford. AYER'S CATHARTIC PILLS have been prepared with the utmost skill which the medical profession of this age possesses, and their effects show they have virtues which surpass any combination of medicines hitherto known.—Other preparations do more or less good; but this cures such dangerous complaints, so quick and so surely, as to prove an efficacy and a power to uproot disease beyond any thing which men have known before. By removing the obstructions of the internal organs and stimulating them into healthy action, they renovate the fountains of life and vigor—health courses anew through the body, and the sick man is well again. They are adapted to disease, and disease only, for when taken by one in health they produce but little effect. This is the perfection of medicine. It is antagonistic to disease, and no more. Tender children may take them with impunity. If they are sick they will cure them, if they are well they will do them no harm.

Give them to some patient who has been prostrated with bilious complaint; see his bent-up, tottering form straighten with strength again; see his long-lost appetite return; see his clammy features blossom into health. Give them to some sufferer whose foul blood has burst out in scrofula till his skin is covered with sores; who stands, or sits, or lies in anguish. He has been drenched inside and out with every potion which ingenuity could suggest. Give them to him whose angry humors have planted rheumatism in his joints and bones; move him, and he screeches with pain; he too has been soaked through every muscle of his body with liniments and salves; give him these PILLS to purify his blood; they may not cure him, for, alas! there are cases which no mortal power can reach; but mark, he walks with crutches now, and now he walks alone; they have cured him.

Have you the less serious symptoms of these distempers, they are the easier cured, jaundice, Costiveness, Headache, Sideache, Heartburn, Foul Stomach, Nausea, Pain in the Bowels, Flatulency, Loss of Appetite, King's Evil, Neuralgia, Gout, and kindred complaints all arise from the derangements which these PILLS rapidly cure. Take them perseveringly, and under the counsel of a good Physician if you can; if not, take them judiciously by such advice as we give you, and the distressing, dangerous diseases they cure, which afflict so many millions of the human race, are cast out like the devils of old—they must burrow in the brutes and in the sea. Price 25 cents per box—5 boxes for $1

TO all persons afflicted with Sexual Diseases, such as **Spermatorrhea, Seminal Weakness, Impotence, Gonorrhea, Gleet, Syphilis,** the Vice of **Onanism,** or **Self-Abuse,** &c. &c.

The Howard Association, in view of the awful destruction of human life, caused by sexual diseases, and the deceptions practised upon the unfortunate victims of such diseases by Quacks, several years ago directed their consulting Surgeon, as a **Charitable Act** worthy of their name, to open a Dispensary for the treatment of this class of diseases in all their form and to give **Medical Advice Gratis,** to all who apply by letter, with a description of their condition, (age, occupation, habits of life, &c.,) and in cases of extreme poverty to **Furnish Medicines Free of Charge.** It is needless to add that the Association commands the highest Medical skill of the age, and will furnish the most approved modern treatment.

The Directors, on a review of the past, feel assured that their labors in this sphere of benevolent effort have been of great benefit to the afflicted, especially to the young, and they have resolved to devote themselves, with renewed zeal to this very important but much despised cause.

Just published, by the Association, a Report on Spermatorrhœa, or Seminal Weakness, the vice of Onanism, Masturbation or Self-Abuse, and other Diseases of the Sexual Organs, by the consulting Surgeon, which will be sent by mail, (in a sealed envelope,) free of charge, on the receipt of two stamps for postage.

AMERICAN AND FOREIGN OFFICE.

R. H. EDDY, Solicitor of PATENTS
(Late Agent of U. S. Patent Office, Washington, under the Act of 1837.)
NO. 76 STATE, OPPOSITE KILBY ST.,
BOSTON.

AFTER an extensive practice of upwards of twenty years, continues to secure Patents in the United States; also in Great Britain, France and other foreign countries.—Caveats, Specifications, Assignments, and all Papers or Drawings for Patents, executed on liberal terms, and with despatch. Researches made into American or Foreign works, to determine the validity or utility of Patents or Inventions,—and legal or other advice rendered in all matters touching the same. Copies of the claims of any Patent furnished by remitting One Dollar. Assignments recorded at Washington.

This Agency is not only the largest in New England, but through its inventors have advantages for securing patents, or ascertaining the patentability of inventions, unsurpassed by if not immeasurably superior to any which can be offered them elsewhere. The testimonials below give proof that none is MORE SUCCESSFUL AT THE PATENT OFFICE than the subscriber; and as SUCCESS IS THE BEST PROOF OF ADVANTAGES AND ABILITY, he would add that he has abundant reason to believe, and can prove that at no other office of the kind are the charges for professional services so moderate. The immense practice of the subscriber during twenty years past has enabled him to accumulate a vast collection of specifications and official decisions relative to patents. These besides his extensive library of legal and mechanical works, and full accounts of patents granted in the United States and Europe, render him able, beyond question, to offer superior facilities for obtaining patents.

All necessity of a journey to Washington, to procure a patent, and the usual great delay there, are here saved inventors.

TESTIMONIALS

During the time I occupied the office of Commissioner of Patents, R. H. Eddy, Esq., of Boston did business at the Patent Office, as Solicitor of procuring Patents. There were few, if any persons acting in that capacity, who had so much business before the Patent Office; and there were none who conducted it with more skill, fidelity and success. I regard Mr. Eddy as one of the best informed and most skillful Patent Solicitors in the United States, and have no hesitation in assuring inventors that they cannot employ a person more competent and trustworthy, and more capable of putting their applications in a form to secure for them an early and favorable consideration at the the Patent Office.
EDMUND BURKE,
Late Commissioner of Patents.

From the present Commissioner.

AUGUST 17th, 1855.—During the time I have held the office of Commissioner of Patents, R. H. EDDY, Esq., of Boston, has been extensively engaged in the transaction of business with the office, as a solicitor. He is thoroughly acquainted with the law, and the rules of practice of the Office. I regard him as one of the most capable and successful practitioners with whom I have had official intercourse.

Price 25 cents.

THESE kindlings are the best that have ever been offered to the public for kindling wood or charcoal fires. They are Cheap, 1 square being sufficient to kindle a wood or charcoal fire, burning from 8 to 10 minutes with a free blaze, therefore kindling nearly 6 fires for 1 cent, are not affected by age or climate. They are safe, being composed of a substance not liable to spontaneous combustion; thereby dispensing with the use of shavings and paper, thus removing a great risk of fire from buildings, and are handier, cheaper, and cleaner.

MISCELLANEOUS.

J. RUSSELL SPALDING'S

ROSEMARY

Combines everything required to give richness, beauty and elegance to the hair. It removes dandruff, and relieves headache. To force the growth, to prevent falling off, and restore hair to bald places, it has been used with positive success. It is presented to the public in an open, candid manner, stating, as the name indicates, the leading ingredients, viz:—

Rosemary and Castor Oil,

both common and well known articles.

The following persons can be found, and are well known. We give a few extracts from their opinions about the

ROSEMARY.

ABRAM A. TRUAX, Esq., Rotterdam, N. Y., writes—"Am 75 years of age, and was bald 25 years; have used two bottles of your Rosemary, and my hair is now two inches long."

REV. SYLVANUS COBB, Boston Mass.—"We had rather pay for it than have other preparations for nothing," &c.

MRS. D. TAFT, Cambridge, Mass.—"Have used your Rosemary with great success in keeping my hair black, as age was turning it fast."

MR. DANIEL B. CONNOR, Boston, Mass.—"Eight months ago I was bald—my hair is now long and healthy—I know your Rosemary has forced it to grow," &c.

OSSIAN E. DODGE, Esq., Vocalist, now of Cleveland, Ohio—"It gives a rapid growth and dark glossy texture, and does not soil the hat or pillow in the least; I know of nothing so valuable for the hair."

FRANCIS ADAMS, Esq., Boston, Mass.—"It is the best thing for children's hair—the ladies are delighted with it," &c.

REV. C. W. DENISON, Buffalo, N. Y.—"I find it excellent for the hair."

MRS. L. SWEENY, Boston, Mass.—"It restored my hair to bald head, and from grey to black color," &c.

HON. C. HUNT, Lowell, Mass.—"To remove dandruff, and keep the hair moist and glossy, we have never found anything so good."

M. HOFFMAN, Esq., (Editor of German Weekly,) Boston, Mass., and his wife Eva, say—"It causes hair to grow vigorously—gives beauty and splendor—is better than European articles," &c.

C. H. STOCKING, Esq. (Trinity College,) Hartford, Ct.—"By using it my hair turned from a sandy to a brown color; it was naturally dry, but it is now moist."

A. F. WOOD, Chemist, New Haven, Conn.—"I saw a fair head of very dark hair on a man that six weeks ago was bald. He had used nothing but your Rosemary," &c.

REVERE HOUSE, Boston, July, 1857. "I had no more hair on my head than an infant, seven months ago. It is now thick, healthy, growing rapidly, and of a fine, dark color. I can positively say that J. RUSSELL SPALDING'S Rosemary, obtained at 27 Tremont street, opposite the Museum, has produced this change."—SARAH J. LORD.

A CARD TO THE LADIES.

DR. DUPONCO'S Golden Periodical Pills for Females. Perfectly harmless, yet wonderfully and powerfully efficious in correcting, regulating, and removing all obstruction, from whatever cause.

All medical men know, as well as many other that no female can enjoy good health, unless she is regular; and whenever an obstruction takes place, whether from exposure, cold, or any other cause, the general health begins immediately to decline, and the want of such a remedy has been the cause of so many consumptions among young females. Headache, Pain in the Side, Palpitation of the Heart, Loathing of Food, and Disturbed Sleep, do most always arise from the interruption of nature; and whenever that is the case, the Pills will invariably remedy all these evils; and may always be used successfully as a preventive.—Price $1 per box. For sale at 132 Thames street, corner Church street, and at 12 Washington Square, opposite State House. Orders for the trade so addressed will be supplied at lowest manufacturer's prices. Ladies by enclosing $1 to STURGIS & CO., Box 801, Newport Post Office, can have the Pills sent confidentially) by mail to any part of the city or country. a26—

LOTTERIES.

Maryland State Lotteries.
R. FRANCE & CO., MANAGERS.

CAUTION NOTICE.

PERSONS living at a distance should be extremely cautious of whom they order Lottery Tickets or Certificates of Packages of Tickets. The country is flooded with bogus and swindling Lotteries. Every inducement is held out to get persons to invest money in them. Capital Prizes of from $50,000 to $100,000 head their schemes—with tickets at One Dollar. $100,000 Capital Prizes are offered, tickets $1. All such, in every instance, are frauds; and if money is sent to them for tickets, it is so much thrown away without the shadow of a chance of getting a prize. Beware of all Lotteries where the Capital Prize is unusually large in comparison to the price of tickets. In every instance where large prizes are offered for a small cost of tickets, put it down as a certain fraud.

The Kentucky State Lottery for the benefit of the Shelby College, under our management, is the only Lottery in the United States which is legally decided by the Maryland Drawings; all other Lotteries which purport to be decided by the Maryland Drawings are frauds.

THE MARYLAND STATE LOTTERIES.

Purchase in the Maryland State Lotteries, then you are sure of being right. And in ordering in the Maryland Lotteries, you are sure of fair and honest drawings.

One thing look to, and that is, if you order from any licensed vendor in Baltimore, do not receive any but Managers' Tickets and Managers' Printed Certificates of Packages. The Managers' Certificates have the numbers printed, and have the lithographed signature of R. France & Co.

No one has a right to send his individual certificates, and if he does it, be sure there is a fraud at the bottom of it.
R. FRANCE & CO.,
f17 Managers of Maryland State Lotteries.

LOTTERIES.—The Lotteries of Samuel Swan & Co., are chartered by the State of Georgia, and have sworn commissioners appointed to superintend their drawings, and certify that everything connected with the same is done in a strictly honorable manner.—They offer to the public a fair opportunity for investment, the interests of parties at a distance being as well protected as though they were present. The managers would respectfully call attention to the fact that all persons have a legal right to send orders for tickets to Georgia, as the lotteries of Samuel Swan & Co., are authorized by the Legislature of that State. A lottery will be drawn every Saturday throughout the year, all orders received being filled in the drawing next to take place after the same comes to hand. According to the scheme one ticket in every ten must draw a prize. Tickets are $10; halves, $5; quarters, $2 50. No tickets sent unless the money accompanies the order. The drawings are upon the principle of one number on each ticket, and are so simple that none can fail to understand them. There is no combination of numbers to mistify the buyer. Prizes vary from $40 to $60,000; every prize ... drawn and result of drawing forwarded to all purchasers.

☞ A list of the numbers that are drawn from the wheel, with the amount of the prize that each one is entitled to, will be published after every drawing, in the following papers:—Augusta (Geo.) Constitutionalist, New Orleans Delta, Mobile Register, Charleston Standard, Nashville Gazette, Atlanta Intelligencer, New York Weekly Day Book, Savannah Morning News, Richmond Dispatch, New York Dispatch and Paulding (Miss.) Clarion.

S. SWAN & CO., AUGUSTA, GEORGIA.

Prizes paid in full—no percentage deducted from prizes as in other lotteries.

All communications strictly confidential.

LOTTERIES.—The well known Maryland Consolidated Lotteries, of which R. France & Co. are the managers, are chartered by the State of Maryland, and a commissioner elected by the people, who is sworn to superintend and certify that everything connected with them is done in a strictly honorable manner, and that the interests of parties who reside at a distance are as well protected as if they themselves were present at the drawing. Attention is, that all persons have a legal right to send orders for tickets to Maryland, as lotteries are legalized by special law in that state. A lottery is drawn every day in the month. If no particular class is named, orders are filled in the first drawing to take place after the communication comes to hand. The prices of tickets vary from $1,00 to $20.—No tickets, however, sent unless the necessary money for the same is received with the order. The drawings are upon the principle of one number on each ticket (after the Havana plan), and Ternary combination. Prizes vary in amount from $20 to 1000,000. All orders for tickets or packages will receive prompt attention, and the drawing mailed to all purchasers immediately after it is over. Address
T. HUBBARD & Co.,
No. 39 Fayette st., or Box No. 40,
fy27 Baltimore Maryland.

☞ The Drawn Numbers of the Maryland Lotteries are published by the State Commissioner in the following Papers, viz.: Sun, Clipper, Patriot, American, Argus, of Baltimore; also, the National Intelligencer and Union, of Washington, D. C.
